D-Scour Paste™

A CONCENTRATED MULTI-STRAIN PROBIOTIC WITH GARLIC EXTRACT AIDING IN THE TREATMENT / CONTROL OF SCOURS IN ANIMALS.

Each gram of D-Scour Paste contains 180million CFU as ;

Lactobacillus acidophilus, Lactobacillus delbrueckii subspecies, *bulgaricus, Lactobacillus plantarum, Lactobacillus rhamnosus Bifidobacterium bifidum, Enterococcus faecium, Streptococcus salivarius* subspecies *thermophilus* and 20mg of Garlic Extract.

D-Scour Paste has been formulated to control scours through the combined action of selected natural live micro-organisms complemented by a natural yet powerful antimicrobial. The combination is synergistic as the antimicrobial portion does not affect the probiotics yet both components attack the micro-organisms which cause scouring, without harming the beneficial bacteria within the animal's gut. This is particularly important when treating animals with enteric disease caused by *E.coli, Rotavirus* or *Candida* spp. and microbially mediated diseases of the urino-genital tract, where for example, *Candida albicans* is implicated.

Garlic has been used for its nutritional and medicinal properties for thousands of years but only recently have manufacturing processes been developed which protect and stabilise its important antimicrobial active.

D-Scour Paste does not contain any chemical or antibiotic component, just safe ingredients produced by mother nature. In contrast the antibiotics used to treat scours don't just kill target pathogens but destroy beneficial digestive bacteria as well.

How much to give. Use the recommended dosage at first signs of stress* or infection and administer daily for up to 5 days or as directed by a veterinarian.

SPECIES	DOSAGE	SPECIES	DOSAGE	SPECIES	DOSAGE	SPECIES	DOSAGE
HORSES	10-20 g	CATTLE	2-4 g	SHEEP/GOATS	2-4 g	PIGS	2-4 g
FOALS/PONIES	5-10 g	CALVES	1-2 g	LAMBS/KIDS	1-2 g	PIGLETS	1-2 g

* (associated with pregnancy, birth, weaning, and transportation, loss of appetite, scouring and temperature extremes, medication, surgery, training and exercise).

D-Scour Paste is available in 30g and 100g dial-a-dose syringes
