Protexin
Multi-Strain Probiotic

Protexin. No breeding farm or competition stable should be without it!

Whether it's supporting milk production in lactating mares, reducing incidence of scours in young foals, correcting poor digestion or gastric upsets when they start training, or helping fight intestinal stress from a heavy racing schedule.

Protexin multi-strain probiotic plays an important role in restoring and maintaining the correct microbial balance in the gut, throughout their entire career.

Less stress for more success!
