

Equilibrium Mineral Mix[®]

Vitamins, minerals and salt

- Broad Spectrum all in one Supplement
- Helps maintain general health and condition
- No additional vitamin, mineral or salt supplement needed

What is Equilibrium Mineral Mix[®]?

Equilibrium Mineral Mix is a broad spectrum supplement that contains balanced ratios of essential macro and trace minerals, vitamins and salt, but no protein, energy or fillers. Our unique formulation provides optimal support for utilization of nutrients for supporting hoof health, recovery from exercise, coat and overall condition.

Why Equilibrium Mineral Mix[®]?

- It is scientifically formulated for equine needs not particular pastures or geographical areas
- A complete product – no need for additional vitamins, minerals or salts
- May balance the diet where nutritional deficiencies and imbalances exist
- Recommended for all breeds, ages, sizes and workloads
- Suitable for horses with laminitis, cushing's, EMS, PSSM, and Insulin Resistance
- Contains essential nutrients for optimum growth and development of youngsters
- Recommended for ALL soil and pasture types, with specific allowances for grazing oxalate pastures

- Contains essential nutrients to support hooves, coat, body condition, recovery from work and optimal health
- One 22kg bag can last a regular horse for nearly 12 months
- Balanced and complete in a simple daily allowance

Cobalt	4mg/kg
Vitamin A	250000IU/kg
Vitamin E	1250IU/kg
Thiamine (B1)	300IU/kg
Folic Acid	100IU/kg

Testimonial

Before Equilibrium Mineral Mix

3 Months After Equilibrium Mineral Mix

"I can't say enough about **Equilibrium Mineral Mix**! This is my 12 year old Welsh Section D, Mickey D. I've owned him for a year and it took a long time to get any kind of condition on him at all! His coat was dull and oily, mane and tail was dry and constantly breaking - until we started the trial! These photos are three months apart - how amazing is that? *His coat is beautiful, shiny and healthy! He smells delish even though he hasn't had a bath since the summer and has filled out beautifully! His hooves have become strong and indestructible. I am so amazed by this product* I've started giving half scoops to my gypsy mare who has blossomed, she is so soft and shiny people can't resist touching her." Kirsty & Mickey D
