

# Product Information

The AHD animal bedding product is made from 100% natural New Zealand pine. It offers horse owners a clean dust free alternative to wood shavings and/or sawdust.

Reduce your labour cost and bedding consumption by up to 50% when using this new natural product. Furthermore, save time when mucking out stables as this product only needs changing every 3 months maximum, (time will vary due to number of horses per stall and soiling content).

## Why make the change to the AHD natural bedding product?

1. Hygienically clean – sterile with no pathogens
2. High absorption rate - easy cleaning, only 8% moisture
3. Low dust – Allergy free environment
4. Low maintenance – less cleaning, can last up to 12 months
5. Eco-friendly – No chemicals, no contaminants, no additives

## How to use AHD Animal bedding product?

(based on a 4mx4m stable)

1. Remove old bedding material
2. Spread the contents of up to 16x 15kg bags over the floor, rake to make level.  
(NB: If you have rubber matting reduce the number of bags to 14)
3. Apply water over the bedding using a hose with a spray nozzle, dampen the bedding
4. Once you notice the pellets swelling or fluffing up stop watering
5. After around 10 minutes the pellets will have absorbed the water
6. Once they are all fluffy, rake into a smooth surface
7. Allow the bedding to dry, you are then ready to put the horse into the stable

Pellets spread on stable floor

Dampened with water

Drying fluffy surface

End result: dry, hygienic bedding
