

FADE AWAY

A REVOLUTIONARY SPRAY-ON ALL WEATHER SCOURABLE STOCK MARKER.

Suitable for use on all wool types/sheep breeds.

Less side effects for you and the sheep.

Tested for its first season with sheep scanning operations nationally in 2021 with excellent feedback and results.

The only sheep identifying marker supported by WOOLWORKS NZ Limited and certified by the Australian Wool Testing Authority AWTA.

“This is the product the sheep, and definitely the wool industry has been in need of for years. It actually does what others claim to do, where others fail. This is made by a company that listens to your suggestions and are more than willing to make changes. In my opinion it’s the best product on the market currently.”

James Jarden - Triple J Limited Sheep Scanning, Wairoa

“I used Fade Away paint for scanning last year and both my fine wool and crossbred farmers told me the paint was there for lambing but completely gone by shearing. I mark the sheep as I scan inside the enclosed space of the scanning trailer and find it doesn’t give me the chemical hangover I have felt using other spray products. I highly recommend Fade Away.”
