

AHD NATURAL ANIMAL BEDDING

PRODUCT INFORMATION

AHD Natural Bedding uses a by-product of New Zealand grown pine, which has a superior lignin content. As a result, the AHD bedding pellet has a higher ability to absorb moisture.

PRODUCT USAGE

AHD Natural Animal Bedding is comparatively economical to implement and use – reducing both handling and maintenance.

Please see the table below for an annual usage comparison.

PRODUCT BENEFITS:

HIGH ABSORBENCY • HIGH COMPOSTING RATING • LONGER LASTING
LOW DUST • LOW MAINTENANCE • LOW PALATABILITY • LOW COST

HOW TO INSTALL

1. Prepare your pen by removing any old bedding and cleaning with Credence (or similar)
2. Spread bedding pellets evenly over the clean pen floor (1 x 15kg bag per 1½ square metres)
3. Using your hose's spray nozzle, systematically wet the bedding pellets until they start to swell
4. Turn bedding with a fork to ensure all of the pellets have expanded. Re-water as necessary.
5. Rake the bedding to even out and leave 2-3 hours to dry.
