

# AHD TRIPLE CLEAN CONCENTRATE DISINFECTANT

***FOR EQUINE USE***

## PRODUCT INFORMATION

The most cost effective equine disinfectant on the market.

Ideal for cleaning down stalls, floats & trucks and equine equipment.

## EFFECTIVE AGAINST:

At 10 mls per 4 litres Triple Clean is effective against the following viruses:

- Leptospira - (rare in horses but cases have been identified)
- Escherchia Coli - (associated with acute diarrhea in foals)
- Staphylococcus aureus – associated with skin disease
- Streptococcus – associated with wounds
- Pseudomonas geruginose – associated with old wounds (gangrenous)
- Clostridium – muscle infections
- Klebsiella choleraesus – common in foals
- Enterobactor aerogenes – common in foals
- Candida albicans – associated with skin infections & uterine infections
- Microsporum – ringworm
- Pseudorbies aeruginosa – rare in horses

## FOR HORSES COAT:

Triple Clean can also be used as a wash for control of fungal infections on the coat.

Recommend to be used at 25 mls per 4 litres and left to air dry on the coat.

Repeat for 3 days then use an equine health shampoo to condition the coat.
