

AHD TRIPLE CLEAN CONCENTRATE DISINFECTANT

**FOR HORTICULTURAL
USE**

PRODUCT INFORMATION

TRIPLE CLEAN is safe and effective for horticultural use. It has been proven to be effective against fungi, viruses and yeast and as such is marketed as a Fungicide and Virucide. Efficacy tests have demonstrated that this product is an effective Bactericide, Fungicide against pathogenic fungi and Virucide in the presence of organic matter. MPI and Asurequality approved.

KEY POINTS:

- Inhibits bacterial growth on moist surfaces and deodorizes by killing microorganisms that cause offensive odours.
- Will control the build-up of slime, mould and unpleasant odours (malodours).
- Is a versatile sanitizer and broad Spectrum and disinfectant formulated for use in cleaning all surfaces, including seed trays, vegetable bins (plastic may remain immersed until ready to use), forks, shovels, footwear and other horticultural utensils (stainless steel and other instruments must be removed after 10 minutes, rinsed and dried)
- May be applied through automatic washing systems, immersion tanks, foaming apparatus, low pressure sprayers and fogging (wet misting) systems. Treated surfaces must remain wet for 10 minutes then wipe with sponge, mop or cloth or allow to air dry.
- Is an effective Fungicide when used on surfaces and provides residual bacteriostatic activity for laundered items such as staff uniforms, overalls etc.
- Is effective in hard or soft water (stable Alkyl distribution) and will remain stable when mixed for up to 2 years.

FOR GLASS HOUSE, SEED PREPARATION AND PRPOGATION ROOMS:

For general cleaning and disinfection use 10mls / 4 litres of water. Wet all surfaces thoroughly. Treated surfaces should be allowed to remain wet for 10 minutes, let air dry. For heavy soiled areas pre-clean first.

Prepare a fresh solution for each use or more often if solution becomes visibly diluted, clouded or soiled.
