

Turmericicle®

Turmeric and Coconut Oil Powder

- Add to feed powdered blend
- Contains Coconut Oil and Black Pepper
- For horses, ponies and dogs

What is Turmericicle?

Turmericicle is a unique powdered blend of well researched nutraceutical herbs including two varieties of turmeric and black pepper. Combined with powdered coconut oil, this easy to feed powder is suitable for horses, ponies, cattle and dogs.

About The Ingredients

Turmeric - Turmericicle contains a blend of two different species of turmeric to optimise the benefits they both offer. One form, Curcuma longa, is the traditional type of turmeric commonly used in cooking, foodstuffs, cosmetics and medicine. Curcuma xanthorrhiza, has been used as a traditional medicinal plant in some tropical countries such as Indonesia and Malaysia. It contains the xanthorrhizal oil which has unusual benefits.

Feeding Guidelines

Mix measured amount into feed.
Split into two feeds.

Horses and Livestock:

Morning feed: 1 x 25g scoop
Evening feed: 1 x 25g scoop

Based on a 500kg horse

A 2kg tub will last a 500kg horse an average of 40 days.

Dogs: Split into two feeds

Size	Teaspoon/s per day
<5kg	1/4 (1.25g)
5-10kg	1/2 (2.5g)
10-15kg	1 (5g)
15-30kg	1 and 1/2 (7.5g)
>30kg	2 (10g)

A 2kg tub will last companion animals an average of 100 days.

Ingredients

Curcuma Longa (Alleppey), Curcuma Xanthorrhiza, Powdered Coconut Oil (PowerStance), Ground black pepper

Sizes Available

500g / 2kg

About The Ingredients

PowerStance is powdered coconut oil designed to make feeding oil easy. Coconut oil contains high levels of medium chain triglycerides (MCTs) which provide the body with a readily available source of lauric acid, which converts to monolaurin. Coconut oil is absorbed directly into the portal blood, and therefore is metabolised faster than other oils.

Ground Black Pepper - Curcumin is treated as a foreign substance by the liver. It is therefore rapidly metabolised and excreted. Piperine in black pepper blocks curcumin excretion by the liver and increases curcumin bioavailability. Piperine activity is reduced in sunlight. Turmeric must be stored in a sealed container to maintain the efficacy of the black pepper.

Suggested Product Combinations

Equilibrium - An affordable optimal blend of vitamins, minerals and electrolytes for all horses and ponies. May support general health and the immune system. B1 Cool Mix for nervous and excitable horses and ponies.

UlcaBuf - an all natural acid balancer supplement with specifically curated ingredients designed to support long term digestive function. It is formulated specifically to support the stomach and the hindgut.

Testimonials

"When recovering from a muscle injury in the shoulder, coupled with the upcoming change of season I made the decision to put my 19 year old Thoroughbred Gelding on Turmeric. The change I saw in his coat after just three weeks was amazing, and he's now happily back in work 5 days a week.

His coat really does look a million bucks compared to this time last month."

Sarah Daniel *Horse was fed the Australian formula.

Before

After 3 Weeks

Before

After 3 Weeks

After 1 Year

"A year ago I started adding Turmeric to the feed of my Percheron Opie, to help with his itchy and sore tail. After only 3 weeks I could see a difference, with the redness reduced and hair beginning to regrow. Now, one year later, his itch has practically gone and he looks INCREDIBLE. Thanks for making the best product ever, he has been on it for a year straight, I can't stop raving about it."

Macy Morris *Opie was fed the Australian formula.
