CYROMAZINE LIQUID

Concentrate sheep dip for the
preventative control of blowfly
strike on sheep.

SHAKE WELL BEFORE USE

ACTIVE INGREDIENT:
500 g/L cyromazine

NET CONTENTS
10 Litres

AHD UNLOCK™ CYROMAZINE LIQUID

PLEASE READ THE LABEL COMPLETELY BEFORE USE

Environmental Protection Harmful to the soil organisms. Hazardous to terrestrial invertebrates. Avoid release to the environment.

Handling Precautions: Cyromazine may possibly affect blood and the haemopoietic system. Do not breath mist or spray. Handle with care. Wash hands and exposed skin before meals and after work.

First Aid: If swallowed, Do NOT induce vomiting. For advice, or if you feel unwell, contact a doctor or the National Poisons Centre 0800 POISON (0800 764 766) immediately.

Emergency Response: In case of spillage, wear appropriate protective clothing and prevent material from entering waterways. Absorb spills with inert material and place in waste containers. Wash area with water and absorb with further inert material. Dispose of waste safely.

Disposal: Preferably, dispose of product by use. Otherwise, dispose of product and packaging at an approved landfill or other approved facility. Triple rinse container and add rinsate to dip wash. Burn in an appropriate incinerator, if circumstances such as wind direction permit, otherwise crush or puncture and bury in a suitable landfill.

WITHHOLDING PERIODS It is an offence for users of this product to cause residues exceeding the relevant MRL in the Food Notice: Maximum Residue Levels for Agricultural Compounds.

Meat: Sheep producing meat and offal for human consumption must not be slaughtered during or within 7 days of the last treatment.

Milk: Milk intended for sale for human consumption must be discarded for 35 days following treatment.

WOOL RESIDUES: Ensure the time between dipping and subsequent shearing is at least two months, except in the case of spot treatment for flystrike. For advice on your dipping programme contact your supplier.

ACTIVE INGREDIENT: AHD UNLOCK CYROMAZINE LIQUID contains 500g/litre cyromazine in the form of a water-soluble concentrate.

GENERAL INFORMATION: AHD UNLOCK CYROMAZINE LIQUID is a non-stripping saturation dip which will give up to 12 weeks residual protection against flystrike caused by all the commonly found strike flies including the Australian Green Blowfly (*Lucilia cuprina*).

A shorter period of protection may occur if AHD UNLOCK CYROMAZINE LIQUID is applied incorrectly, if there is excessive

fleece soiling, or if wool infections such as mycotic dermatitis (fleece rot) are present. Prolonged heavy rain following treatment may also reduce the protection period provided by AHD UNLOCK CYROMAZINE LIQUID.

DIRECTIONS FOR USE: By law the user must take due care, obtaining expert advice when necessary, to avoid unnecessary pain and distress when using the product other than as directed on the label.

USE RATE

FOR LONGER TERM PROTECTION (up to 12 weeks). Mix 2 litres of AHD UNLOCK CYROMAZINE LIQUID with 1000 litres of water and apply by showering, plunge dipping or jetting. Top up at the same rate. Because this is a non-stripping dip, no reinforcement is required.

FOR MEDIUM TERM PROTECTION (up to 6 weeks). Mix 1 litre of AHD UNLOCK CYROMAZINE LIQUID with 1000 litres of water and apply by showering or plunge dipping. **Do not use this rate for hand jetting or through spray races.** Top up at the same rate. Because this is a non-stripping dip, no reinforcement is required.

STORAGE: Store in original container, tightly closed, away from direct sunlight, in a cool, dry place, avoiding temperatures below 0°C and above 35°C.

Conditions of Sale: Product sold by Animal Health Direct Ltd. will be suitable for use in the manner stated on the label. As Animal Health Direct Ltd. do not have any control over the way in which this chemical is used and the timing of application, Animal Health Direct Ltd. will not guarantee any application results. Liability will not be accepted for any loss arising through application, handling, storage and transportation of goods.
