

ANPROFLEX™ Canine

DUAL ACTION JOINT CARE

MADE FROM 'COLD PRESSED' NZ GREEN LIPPED MUSSEL

Mark and Freedo in action at the 2019 NI NZ Championships in Northland

'Freedo' on Anproflex

Sally Mallinson - N.Z.S.D.T.A Newsletter Editor

Freedo is an eight year old huntaway bitch belonging to Mark Mallinson, who suffered an injury as a young dog when a pup canned into her resulting in a piece of bone being chipped off the elbow of her right front leg. Nothing could really be done for the injury and over the years we have tried many products to give her relief, with varying success. She is a very good work dog and has been competitive at a National Dog Trial level.

*"In 2018 Animal Health Direct gave me some **Anproflex** capsules to give to Freedo and to be honest, I couldn't see how they were going to be any different from other natural products we had tried. But within three weeks Freedo was not as lame, some swelling had gone down and she was definitely happier in herself, indicating less pain. The **Anproflex** pills will never fix her injury but they have made her life a lot easier. She will be on them for life now.*

Anproflex contains food grade green lipped mussel which carries with it other health benefits as well. I would fully recommend them."
